

Example 11.1 p. 541.

$$Q_D = \alpha_0 + \alpha_1 \cdot P + \dots$$

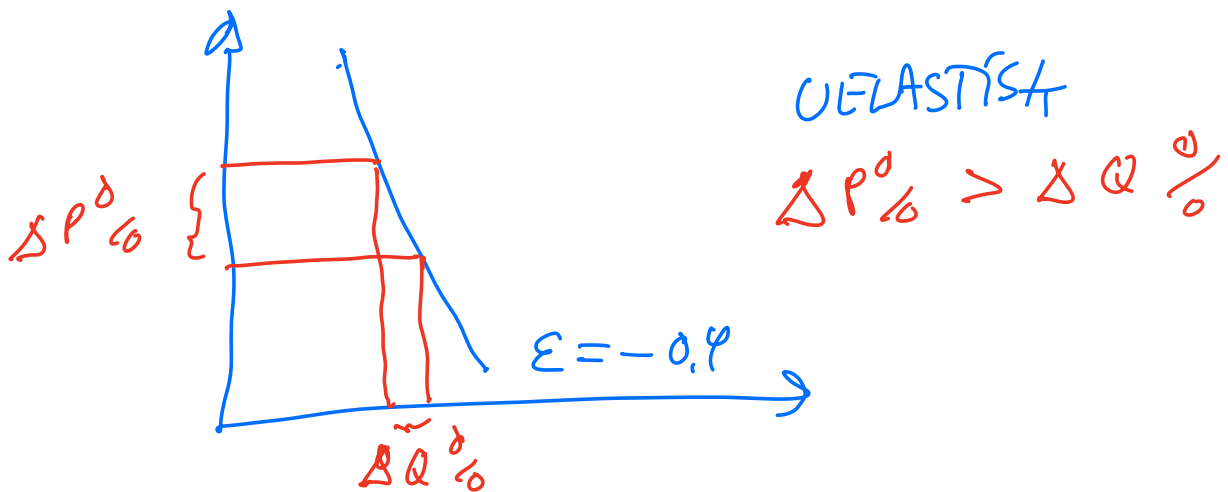

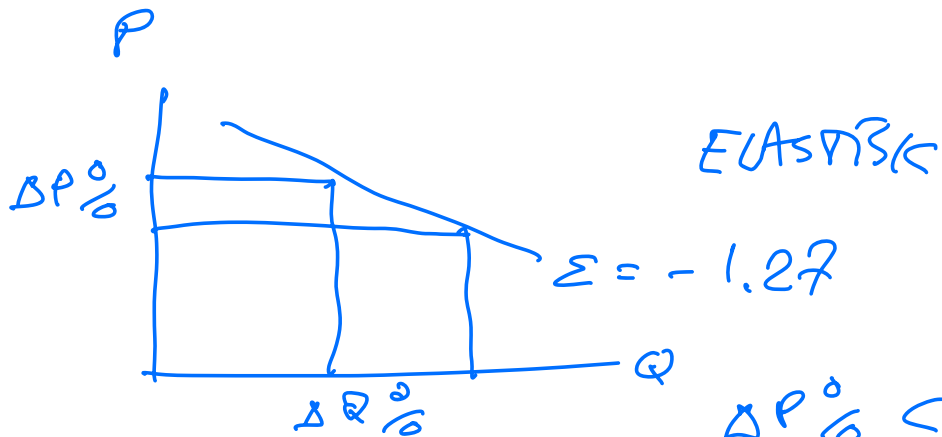

$$\Delta Q = \alpha_1 \Delta P$$

$$\frac{\Delta Q}{\Delta P} = \alpha_1 \quad \left| \times \frac{P}{Q} \right| \text{ ELASTICITY}$$

$$\frac{\Delta Q}{\Delta P} \frac{P}{Q} = \alpha, \frac{P}{Q}$$
